

Consult

Our team of industry-leading professionals provides technical and economical subject matter expertise and management consulting services to our clients as they plan and implement net zero-strategies in rail and transit.

Collaborate

We partner with government, regulators, industry and academia – bringing together the brightest minds, the most innovative organizations, and the latest technologies.

Care

The Center contributes knowledge and expertise in community and sectoral forums, to advance net-zero efforts where we live, work and play.

The Center for Net Zero Transformation empowers and supports rail and transit agencies & businesses across North America as they transition their organization and operations to net zero mobility.

DB E.C.O. North America

Center for Net Zero Transformation in Rail and Transit

Andreas Hoffrichter, PhD
Principal, Center for Net Zero Transformation

Chris Beringer
Manager, Center for Net Zero Transformation

DB E.C.O. North America

We support the implementation of all key levers to **reduce lifecycle GHG emissions and criteria air pollutants:**

- Alternative powertrains
- Alternative fuels
- Renewable power purchasing
- Emission control technologies
- Fueling & maintenance
- Carbon free stations & facilities
- Sustainable procurement
- Sustainable business processes
- Community outreach & knowledge transfer

The Center for Net Zero Transformation supports organizations in North America **through all stages of their transformation to net zero mobility.**

1. Strategy Development

- Science based target setting & certification support
- Techno-economic feasibility analysis
- Financial & implementation planning
- Life cycle emissions modelling

2. Pilots & Prototypes

- Advanced vehicle simulations & emission testing
 - Corridor & regional conversions
 - Retrofit trials & OEM design reviews
 - Practical viability assessments

3. Full Transformation

- Fleet / asset conversion & replacement
- Commercial & operational optimization
- Procurement & supply chain support
- Labor upskilling & training
